Product Description

Dirt Dog RT206 72" Rotary Tiller

Groundbreaking news from Dirt Dog... the new RT Series gear-driven tillers, designed and built in Commerce, Georgia, can handle your toughest tilling needs. From establishing a garden to putting in a wildlife food plot to incorporating soil amendments for nutrient enhancement, the RT Series tillers from Dirt Dog are built tough to help you get the job done fast. Available in 5-foot, 6-foot, and 7-foot tilling widths in both forward and reverse tine rotations, the all-welded steel frame construction houses a side drive gearbox that transfers power to the rotor where 6 blades per flange deliver optimized soil tilling. An adjustable swinging tailgate smooths the tilled soil leaving a clean finish ready for planting. The RT units are equipped with an innovative, spring-loaded parking stand that makes hitching and unhitching the units a breeze. When you desire optimum tilling performance in a solidly built machine at an affordable price, look no further than the RT Series tiller line from Dirt Dog! Contact your local Dirt Dog dealer to find out more on this exciting series of tillers.
