SKU: CAGGR50

Categories: [Dirt Dog](#)

Product Description

Compact AG Grapple Dirt Dog's CAGGR50 ag grapple is the best choice for cleaning up brush and debris with your AG loader. The AGGR is available for ag loaders up to 30 horse power. With its powerful single arm opening to 34", it can tackle large brush piles and logs with ease. The 2" x 6" ASAE tie rod cylinder produces the clamping force for the 5/8" thick tines allowing the operator to sift through and grab debris, making it easy to manipulate. The CAGGR50 is made from 1/2" steel and is 50" wide to cover most compact tractor wheel paths.

- Use on AG Tractors up to 30HP
 - Single 2" x 6" hydraulic cylinder
 - 1/2" A36 steel
 - Serrated tines
-
