Product Description

Compact Aerators & Pluggers - CPG & CAR Dirt Dog's Compact Pluggers and Aerators are the perfect tool for home owners to care for lawns by breaking up and aerating compacted dirt with your compact tractor. Our Compact Plugger uses 3/4" hardened spoons on independently rotating and greaseable hubs on a 1 1/4" axle to remove a plug allowing your lawn to breathe, hydrate, and relieve compaction. Our Compact Aerator is equipped with slicing knives. These knives are great for athletic fields since they don't disturb the surface while they aerate and hydrate. Knives are also great for controlling thatch. The frame can also be used as a weight rack to get maximum penetration.

- Independently Greasable & Rotating Hubs
 - Weight Rack Designed for Maximum Penetration
 - Five Gallon Buckets Fits in Weight Rack
 - Category 1 Quick Hitch Compatible
 - Solid 1 1/4" Axle
-
